VISIONX MARKET ANALYSIS

Disclaimer & Terms of Use

VisionX does not provide investment advice within the meaning of MiFID II / §2 WpHG or equivalent regulation in any jurisdiction. All VisionX analyses represent structural and technical opinion published for educational purposes only. This document supersedes any verbal or informal representations.

IMPORTANT By accessing, reading, or acting upon any VisionX market analysis, you acknowledge that you have read, understood, and agreed to this disclaimer in its entirety. All content represents structural opinion only — it is not investment advice and contains no trade directives.

01 Structural Analysis Only

VisionX market analyses are educational publications presenting technical and structural interpretations of price action — including Elliott Wave Theory, Smart Money Concepts (SMC), indicators (MACD, RSI, ADX, etc.), chart and harmonic patterns, and related analytical frameworks. All content is educational in nature and reflects analytical opinion only.

02 No Investment Advice

Nothing contained in any VisionX analysis — in any format or channel — constitutes investment advice, a trading recommendation, a solicitation, or an offer to buy or sell any financial instrument within the meaning of MiFID II (Directive 2014/65/EU), the German WpHG, the Austrian WAG 2018, the Swiss FIDLEG, or any equivalent national capital markets regulation. VisionX is not a licensed investment advisor or financial institution in any jurisdiction.

03 Opinions, Not Recommendations

Every analysis represents the subjective opinion and structural interpretation of its author at the time of publication. Such opinions are inherently uncertain, may be incomplete or incorrect, and are not personalised to your individual circumstances, objectives, knowledge, or risk profile.

04 No Trade Directives

Price levels, zones, targets, invalidations, and scenarios are presented as structural illustrations and possibilities only. They are not entry, exit, stop-loss, position-sizing, or leverage instructions, and must not be interpreted or acted upon as directives to trade.

05 No Guarantee — Past Performance

VisionX makes no representation or guarantee that any analysis will prove accurate, timely, or profitable. Past performance of any methodology, indicator, or prior analysis is not indicative of future results.

06 Forward-Looking & Subject to Change

Analyses are snapshots reflecting market conditions and information available at a single point in time. They may become outdated and may be revised, updated, or invalidated without notice. VisionX is under no obligation to update, correct, or withdraw any published view.

07 Your Sole Responsibility

Any trading or investment decision you make following a VisionX analysis is entirely at your own risk and is your sole responsibility. VisionX expressly disclaims any liability for losses, damages, or missed opportunities arising directly or indirectly from reliance on its analyses.

08 Limitation of Liability

To the maximum extent permitted by applicable law, VisionX, its owners, analysts, and affiliates shall not be liable for any direct, indirect, incidental, consequential, or punitive damages arising out of reliance on any analysis. This limitation applies regardless of the form of action, whether in contract, tort, or otherwise.
